MEMORANDUM FOR RECORD

FROM :

SUBJECT : Summer Area Program - Soviet Section

1. As originally organized by the Summer Area Program courses on Russia were to be given by three professors. Meetings were to be held in the morning at Building (for the sake of convenience of employees who worked there), and in the afternoon at R & S Building in two sections.

2. Because two of the three instructors could not be here during July, Professor agreed to concentrate his work at building in that period, thus allowing the other two who will come on board in August to give their courses in the last part of the course. of the Intelligence School has been filling in with two lectures a week at R & S.

3. It was agreed between and that since the latter was concentrating his History course at Building into the July part of the program, he would be free from that work during August. He will, however, continue his share of the lectures at R & S as originally planned. I have confirmed this arrangement to after consultation with , who has given his approval of it.

4. I wish to emphasize that the above arrangement has not decreased the amount of teaching that will have been done by but rather that we are indebted to him for his willingness to adjust his schedule to accommodate us in our difficulty.

5. I wish to point out that in the future we should do whatever is possible to provide ample opportunity for the professors to prepare their lectures and question and answer periods. The strain on Professor in making preparation for the extensive coverage of these daily lectures has been exhausting.
